City of Camas-definition of Park Ambassador

***Stewardship** definition:

The responsible overseeing and protection of something considered worth caring for and preserving.

What's my role?

Visit the park at least once a week to enjoy and observe.

The key is to enjoy your park!

Observe what users are enjoying (i.e. what's working), if there are any issues (i.e. grass too tall, need trash removal...).

Speak with park users, if you are comfortable, about the park (i.e. get their perspective - what's working or needs improvement)

Email your observations to the Parks & Recreation Director.

Be ready to share a unique story/observation at the monthly Parks & Recreation Commission.

Adopt A Park

IS THIS SOMETHING WE WOULD LIKE TO TAKE TO COUNCIL?

About the Program

- Adopting a park is a great way to make a difference in the community. This program provides many different ways for local groups, families, and businesses to get involved and help keep our parks safe and clean.

What does it mean to adopt a park?

- Adopting a park is a great way for local groups, individuals or organizations to get involved in the community. The primary goal for park adopters is to help keep the parks safe and clean. This can be done through individual park patrols, work parties, or large community events.

What is required to adopt a park?

- Fill out an Adopt-a-Park Application
- Set up a meeting with the Volunteer Coordinator to discuss adoption details and create a park work plan based on adopted park and group needs
- Complete weekly/monthly tasks (less required in winter months)
- Complete at least two (2) service projects each year
